

Summer bespoke coaching immersive for mothers raising neurodiverse children.

New summer evaluations - we'll make sense of the data.

Ongoing IEP issues - we'll talk goals, progress or regression.

September placement uncertainty - we'll weigh options.

Parenting exhaustion - we'll ease the chaos.

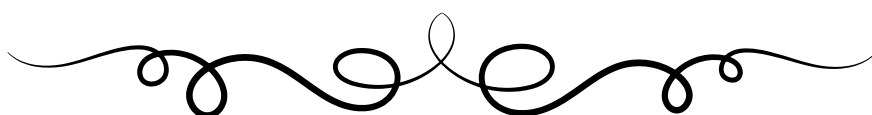

Your time and sanctuary to unburden. Then we'll get to work creating a roadmap with flexibility for moving ahead.

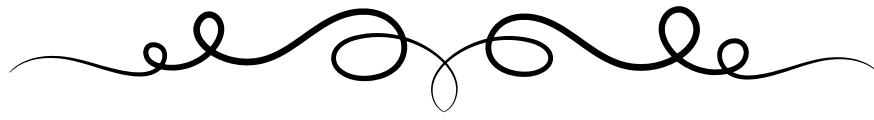

Two, 60-minute sessions before the arrival of fall.

For 25 years, I've partnered with & coached parents navigating special education, exceptional caregiving & work/life. Together, we'll sort through immediate issues, protect your limited time, and set the direction to start the new school year.
